### **MANITOWOC ICE GOES HOLLYWOOD**

**MANITOWOC, WI** – February 9, 2006 – On Wednesday’s airing of the Oprah Winfrey show, guest star, Mathew McConaughey took the audience through a virtual tour of his Los Angeles “crib”. While in the kitchen, McConaughey showed off his beloved Manitowoc ice machine and professed his “love of ice”, to the world. While millions of Americans hoped to get a glimpse of Penelope Cruz, what they got was something even better, a close up look at the way movie stars like their drinks... served with crushed ice, plenty of it, when they want it... Manitowoc style.

So what does Mc Conaughey think of his ice maker, “I did a lot of research and with this Manitowoc QF400, I can get my own crushed ice... it makes a drink so much more enjoyable”. That’s right, People magazine’s 2005 sexiest man alive cools down with Manitowoc Ice, need we say anything more?

To learn more about Manitowoc Ice and its commitment to innovation and technology, visit [www.manitowocice.com](http://www.manitowocice.com).

(More)
